KEY INSIGHTS & RECOMMENDATIONS

01

Reverse Engagement Decline

Engagement dropped 44% from 8.5% to 4.7%. Launch creative refresh campaigns and test short-form video formats across Instagram & YouTube.

02

Double Down on Google & Email

Top performers with 88 and 82/100 scores respectively. Increase budget allocation by 20% and optimize targeting parameters.

03

Reactivate Dormant Segments

7% of audience is dormant (90+ days inactive). Deploy personalized win-back sequences with exclusive incentives to recover revenue.

04

Scale Brand Alpha & Beta

Alpha ($2.8M) and Beta ($2.1M) drive 57% of total revenue. Expand to new geographies and replicate their content strategies across underperforming brands.

05

Re-evaluate Facebook & YouTube

Scoring 61 and 55 respectively with declining trends. Consider creative rework or reallocating budget to higher-converting channels.

06

Invest in High-Value Segment

High-value customers (22% of base) drive disproportionate revenue. Build VIP loyalty programs and early-access campaigns to maximize LTV.

CONCLUSION

Turning Data Into Action

📈 Revenue grew 24% YoY — campaign ROI is strong across top brands

⚠️ Engagement decline demands immediate creative strategy overhaul

🎯 Google Ads & Email are top channels — prioritize for Q2 budget

🔄 Reactivate dormant segment and expand high-value customer programs
